

## **Challenges of Remote Working - Trust, Surveillance and AI**

**In collaboration with Microsoft, FASresearch and Lappeenranta University.**

**9<sup>th</sup> February 2021, 16:00-18:00 CET**

Join our second Online Dialogue on **February 9<sup>th</sup>, 2021, 16:00-18:00 CET** and

1. Learn **how to build and retain trust** through remote working;
2. Gain insights into **network science and resilience**; and
3. Explore the **interlinkage between security, trust and employee empowerment**.

Please register for the webinar [here](#).

### **Meet the experts:**

- **Kirsimarja Blomqvist** is a professor for knowledge management at the School of Business and Management at LUT University, Finland. Her research and teaching focuses on trust, knowledge management, digitalization and new forms of organizing.
- **Harald Katzmaier** is the founder of FASresearch and a leading expert in the field of applied social network analysis with a focus on power relations, innovation and strategic situation analysis.
- **Harald Leitenmüller** is CTO of Microsoft Österreich GmbH. He is a leading edge technology focused professional with 25 year of experience as a system designer, architect and business manager/leader in various industries.

The event is facilitated by **Svetlana Ivanova**, Researcher at ISINNOVA – the Institute of Studies for the Integration of Systems and **André Martinuzzi**, Coordinator of the LIVING-INNOVATION project and Head of the Institute for Managing Sustainability at WU Vienna.

The expert impulses are followed by in depth conversations on:

- **Trust-based Leadership**
- **Resilient Organizations**
- **Responsible Surveillance**
